Child Care Center Sponsorship Plan
For Multiple Scholarship Recipients

This plan is in reference to the sponsorship of center staff on the T.E.A.C.H. Early Childhood® Associate Degree Scholarship program. Because the center would like to sponsor multiple staff members on the T.E.A.C.H. Early Childhood® Associate Degree Scholarship and/or Bachelor Degree Scholarship, the financial obligations of sponsorship have been carefully considered. As the administrator of this child care facility, I attest that the child care program has the capacity and resources to support more than two associate degree scholarship and/or bachelor degree scholarship recipients simultaneously and understand that the center will be responsible for:

- Contributing a percentage of tuition and/or books as outlined in the scholarship contract for each TEACH scholarship recipient based on the individual’s scholarship model and option;
- Providing paid release time for each TEACH scholarship recipient as outlined in the scholarship contract based on the individual’s scholarship model and option; and
- Awarding compensation for each TEACH scholarship recipient as outlined in the scholarship contract based on the individual’s scholarship model and option.

The information below details our capacity and resources to sponsor multiple scholarship recipients simultaneously:

Based on each participant’s scholarship model our child care program has set aside $______________ in our yearly operating budget to cover the sponsorship of ________ scholarship recipients.

Below is the child care center’s plan and resources for accommodating release time:
(Note: If you need additional space to describe your plan to sponsor multiple scholarship recipients feel free to attach an additional page(s) to this document.)
